

Practice Method

1. Read the words of the trope group.
2. Sing the trope for that group.
3. Sing the group with the words and trope together.
4. Sing the group (looking at the paper!) with the recording 6 times.
5. Sing the group on your own with no recording 2 times.
6. Check for mistakes by quietly singing the group with the recording a bit louder than you.
7. Repeat steps 4-6 until the trope group is Bar/Bat Mitzvah Ready. Then move to the next trope group in the verse.
8. Sing the verse through with trope names only.
9. Sing the verse with the words all the way through.
10. Repeat steps 8 & 9 until the verse is Bar/Bat Mitzvah Ready!!

Remember the difference between practicing and reviewing!! *Practicing* means going over and over one small spot or section until it is smoothed out. *Reviewing* means singing through the whole section once to make sure you don't forget it!!

Plan out your week of practicing and hold yourself accountable to it!! Try to write this out in a practice chart and make sure to use your tutor as a resource to help you plan.

At the end of each practicing session pick one new line that you worked on that day and sing it for someone else (a parent, grandparent, nanny, friend or sibling – even if they're younger).
